# My Place in Life

## My Place in Life

28 year-old Janine has just dumped her boyfriend and is finally moving into her own place. Now her life is really going to take off - she's independent and simply needs to make her own way.

There's just a couple of small details to take care of... finding the love of her life, a high-paying job, having great sex, and last but not least, scoring those hot new shoes in town before that arrogant bitch Svenja can.

It's just a matter of the typical questions of social standing, career, fun and family planning with which a young woman must be concerned. However, it does turn out to be a bit more difficult than she had imagined...
