Deadly Games

Deadly Games

After a traumatic kidnapping that she barely survives, the lawyer Anna Winter tries to begin a new life. To erase the horrific memories, she gets a new job, a new look and a new flat. Although overqualified for working a lawyer hotline, Anna would never return to having her own law firm.

When a stranger calls Anna requesting her help in finding a serial killer who is still free while another has been falsely convicted of his crimes, she refuses point blank. When the murderer strikes again, Anna's sense of responsibility finally overcomes her fear. Pushing aside the dreadful terror knotting her stomach, she accepts the case to prevent further murders. Anna quickly finds herself in a deadly cat-and-mouse game with the killer, but it is not only she that faces

grave danger: during a spectacular car chase, her friend Marco is left comatose with severe head injuries. Anna is now alone, up against a ruthless and unpredictable killer that brutally tortures women and leaves them to die in agony. During her investigation she meets the shady but handsome lawyer Phillip. At first gaining her confidence, he soon raises Anna's suspicions.

Anna is at an extreme disadvantage: the murderer knows much of her past and uses that knowledge to toy with her, while she knows little of his possible identity - or how dangerously close to her he has become. To save her friend's life, she risks her own - just as the killer had planned. In a dramatic showdown, Anna confronts the manipulative psychopath...
