## Macho Undercover

Tom is a typical macho - he writes for a car magazine, he loves football, his buddies, beer and of course women. Basically in love with himself, he enjoys the sunny side of life, until he crashes a brand new Maserati on a test drive when his gorgeous passenger Irina becomes a bit too amorous and causes him to lose control of the vehicle. He gets fired, his girlfriend Manu leaves him and Tom has to file for unemployment.

Ultimately, he has no choice but to apply for a position at a women's magazine. But Gross, the editor in chief, a devout macho himself, only hires women and gay men. So Tom squeezes himself into women's clothing, delivers a performance worthy of a drag queen and gets the job. His new colleagues are the frustrated single Babette, the actually gay Chris and the beautiful Andrea.

Unfortunately, Tom has problems containing his former self, Chris is giving him more attention than he would like, and he himself falls head over heels in love with Andrea...
